

May 16, 2018 – Day 1

This week Salisbury's Sabres Edge and SAIL groups are hosting our "Distracted Driving Awareness Week". We have lots of cool activities planned to serve as a reminder of just how dangerous it is to be preoccupied with other things while driving. The same fact keeps coming up, drivers are 23 times more likely to be in an accident if they have a cell phone in their hands. With the long weekend coming up, and many our students now driving to school it is good to take a minute to think about what the true risks to distracted driving, or impaired driving. Today at lunch time there will be a driving simulator parked in the back of the school. Come and see for yourself just how much distracted driving affects your ability to drive safely.
