

COSMETOLOGY 20 COURSE OUTLINE

Welcome to Cosmetology 20! In this class you will experience some new trends in hairstyling and fashions, as well as learn new techniques for chemical services and esthetic services. The courses listed below are those we will be covering over the semester.

Please contact Zena Duguid at zena.duguid@eips.ca or 780-467-6463 if you have any questions or concerns.

- Each course is worth one credit and is a complete course with its own final exams and final mark. There is no cumulative exam at the end of the semester.
- Cosmetology courses are NOT independent learning. Because of the hands-on nature of much of the learning, we need to instruct directly and demonstrate closely before students are able to attempt a skill or procedure. Often, one-on-one assistance is necessary as a follow up to instruction; and always, observation of the learning process is needed for accurate assessment. Therefore, instruction and completion of courses are based on the class moving through the program as a whole. *Regular attendance is imperative to your success.*
